## SKILLS

- ❖ **Java, Python**
- ❖ **HTML, CSS, Javascript, BootStrap**
- ❖ **SQL, PHP**

## EDUCATION

- ❖ Computer Science and Engineering |VIT AP University(2021-present)    7.99/CGPA

- ❖ Higher Secondary Education| Narayana Jr.College(2019-21)              968/1000

- ❖ Secondary Education | Z.P.H School(2018-19)                          9.5/CGPA

## EXPERIENCE

- ❖ **Frontend Web Development | Intrainz**                      *(2023 June- Aug)*

   Working as a frontend web developer at **Intrainz**, I gained hands-on experience with modern frameworks, improved my skills in responsive design, and collaborated closely with a dynamic team to deliver high-quality, user-centric web applications.

## ACADEMIC PROJECTS

- ❖ **Leaf Disease Detection | Link**

   The Leaf Disease Detection project uses machine learning algorithms to accurately identify and classify plant diseases from leaf images, enhancing early detection and aiding in effective agricultural management.

- ❖ **Hospital Management System| Link**

   The Hospital Management System project leverages web development to streamline administrative tasks, improve patient data management, and enhance communication between medical staff and patients.

- ❖ **To-Do List| Link**

   The To-Do List project, built using web development, offers users an intuitive interface to manage tasks efficiently, enabling easy organization, tracking, and prioritization of daily activities.

- ❖ **Weather App | Link**

   The Weather App project, created using web development, provides real-time weather updates and forecasts with a user-friendly interface, helping users stay informed about current weather conditions.

## POSITION OF RESPONSIBILITY

- ❖ Java Development On Oracle Cloud  -  **Link**
- ❖ Certificate Of Internship  - **Link**

## ACHIEVEMENTS

- • Secured All India Rank 21811 in GATE 2024.
